Chapter Titles

Introduction

Chapter 1 Introduction to ClientDataSets

Chapter 2 Loading Data with ClientDataSets and DataSetProviders

Chapter 3 Saving Data with ClientDataSets and DataSetProviders

Chapter 4 Defining a ClientDataSet's Structure

Chapter 5 Understanding ClientDataSet Indexes

Chapter 6 Managing the ClientDataSet Change Cache

Chapter 7 Navigating ClientDataSets

Chapter 8 Searching ClientDataSets

Chapter 9 Filtering ClientDataSets

Chapter 10 Aggregates and GroupState

Chapter 11 Cloning ClientDataSet Cursors

Chapter 12 Using Nested DataSets

Chapter 13 ClientDataSets and DataSnap Servers

Chapter 14 ClientDataSets and DataSnap Clients

Chapter 15 Remote ClientDataSet-DataSetProvider Interaction

Appendix A Web Page for the Delphi in Depth: ClientDataSets Book

Index

Table of Contents

Introduction

Chapter 1 Introduction to ClientDataSets

High Performance

Self-Describing

Change Cache Managing

Persistable

ClientDataSets and Databases: A Layer of Abstraction

A Database Application without an External Database

Data Carrier

Using MIDAS.DLL

Using MidasLib

Chapter 2 Loading Data with ClientDataSets and DataSetProviders

Configuring ClientDataSets to Use DataSetProviders

Initiating Loading

Variations on Loading

- Getting a DataSetProvider's Data Directly
- Loading Some of the DataSet
- Fetching Records on Demand
- Manually Requesting Additional Data
- Limiting the Data in a Request

Copyright © 2011 Cary Jensen, Jensen Data Systems, Inc. World rights reserved. Links for purchasing this book at: http://www.JensenDataSystems.com/cdsbook/. This footnote does not appear in the printed book.

Chapter 3 Saving Data with ClientDataSets and DataSetProviders

What Exactly is Being Saved?

Saving ClientDataSet Changes Using a DataSetProvider

Configuring ClientDataSets to Use DataSetProviders

Initiating Saving

ApplyUpdates and MaxErrors

Using ResolveToDataSet

Handling Update Failures

Controlling How Updates Are Applied

Changing the Default Behavior with UpdateMode

Fine Tuning Updates with ProviderFlags

Writing Custom Updates Using BeforeUpdateRecord

Chapter 4 Defining a ClientDataSet's Structure

What Is a ClientDataSet's Structure?

Defining Structure

Defining a Table's Structure Using FieldDefs
- Creating FieldDefs at Design Time
- Saving a ClientDataSet at Design Time
- Creating FieldDefs at Runtime
- Saving a ClientDataSet at Runtime
- An Example of Runtime FieldDefs

Defining a ClientDataSet's Structure Using Fields
- Creating Fields at Design Time
- Adding a Calculated Virtual Field

Creating a ClientDataSet's Structure at Runtime Using Fields
- Fields and FieldDefs Are Different

Copyright © 2011 Cary Jensen, Jensen Data Systems, Inc. World rights reserved. Links for purchasing this book at: http://www.JensenDataSystems.com/cdsbook/. This footnote does not appear in the printed book.

A Complex Example Using Fields at Runtime

Chapter 5 Understanding ClientDataSet Indexes

Index Overview

Indexes and ClientDataSets

Default Indexes

Creating Indexes
Temporary Indexes
Persistent Indexes

Using Persistent Indexes
Creating Persistent Indexes at Runtime
An Example: Creating Indexes On-the-fly

Chapter 6 Managing the ClientDataSet Change Cache

Controlling the Change Cache

Change Cache Basics

Loading the Data

Enabling and Disabling the Change Cache

Detecting Changes

Saving to File

Loading from File
Saving and Loading with Optional Parameters

Viewing the Saved File

Apply Updates with Loaded Data

Closing Without Applying Updates

Copyright © 2011 Cary Jensen, Jensen Data Systems, Inc. World rights reserved. Links for purchasing this book at: http://www.JensenDataSystems.com/cdsbook/. This footnote does not appear in the printed book.

Controlling the Change Cache

Merging the Change Cache

Canceling the Change Cache

Removing Single Changes from the Cache
Determining Single Record Cache Status

Using SavePoint

Using Status Filters
StatusFilter Versus Delta

Chapter 7 Navigating ClientDataSets

Navigating with Data-aware Controls

The DBNavigator

Displaying Controls that Allow Navigation
Using DBGrids
Using DBCtrlGrids

Detecting Changes to Record State

Navigating Programmatically

Basic Navigation

Have I Gone Too Far? Bof and Eof

Using MoveBy

Navigating Using RecNo

Scanning a ClientDataSet

Disabling Controls While Navigating

Editing a ClientDataSet

Copyright © 2011 Cary Jensen, Jensen Data Systems, Inc. World rights reserved. Links for purchasing this book at: http://www.JensenDataSystems.com/cdsbook/. This footnote does not appear in the printed book.

Chapter 8 Searching ClientDataSets

Simple Record-by-Record Searches

Searching with Indexes

Finding Data

Going to Data

Searching with Variants

Locating Data

Using Lookup

Chapter 9 Filtering ClientDataSets

ClientDataSet Filters

Setting a Range

Using ApplyRange

Canceling a Range

A Comment About Ranges

Using Filters

Using the OnFilterRecord Event Handler

Navigating Using a Filter

Using Ranges and Filters Together

Chapter 10 Aggregates and GroupState

Using Aggregates

Creating Aggregate Fields

Adding the Aggregate Field

Defining the Aggregate Expression

Copyright © 2011 Cary Jensen, Jensen Data Systems, Inc. World rights reserved. Links for purchasing this book at: http://www.JensenDataSystems.com/cdsbook/. This footnote does not appear in the printed book.

Setting Aggregate Index and Grouping Level
Making the Aggregate Field Available
Turning Aggregates On and Off

Creating Aggregate Collection Items

Understanding Group State

Creating AggregateFields at Runtime

Chapter 11 Cloning ClientDataSet Cursors

Cloning a ClientDataSet's Cursor

The Shared Data Store

Cloning a Filtered ClientDataSet: A Special Case

Cloning Examples

Self-Referencing Master-Details

Deleting a Range of Records

Chapter 12 Using Nested DataSets

Nested DataSets and Dynamic Master-Detail Links

Creating a Dynamic Master-Detail Link

Loading Master-Detail Links from a DataSetProvider
The Default Nested DataSet Form
Customizing Nested DataSet Views

Nested DataSets and the Top-Level ClientDataSet

Creating Nested DataSets Explicitly

Defining Nested DataSets at Design Time
Using FieldDefs at Design Time
Using Fields at Design Time

Defining Nested DataSets at Runtime

Copyright © 2011 Cary Jensen, Jensen Data Systems, Inc. World rights reserved. Links for purchasing this book at: http://www.JensenDataSystems.com/cdsbook/. This footnote does not appear in the printed book.

Using FieldDefs at Runtime
Using Fields at Runtime

Final Thoughts About Nested DataSets

Chapter 13 ClientDataSets and DataSnap Servers

Overview of DataSnap

DataSnap Servers

COM-Based DataSnap Servers
Creating a Basic COM-Based DataSnap Server
Exposing DataSetProviders from a COM-Based DataSnap Server
Registering a COM-Based DataSnap Server
The RemoteDataModule and Concurrency

IP-Based DataSnap Servers
Creating an IP-Based DataSnap Server
Exposing DataSetProviders from an IP-Based DataSnap Server
Installation of an IP-Based DataSnap Server
DSServerModules and Concurrency

Chapter 14 ClientDataSets and DataSnap Clients

DataSnap Clients

COM-Based DataSnap Clients
Creating a COM-Based DataSnap Client
Adding COM-Based DataSnap Server Connectivity
The COMDataSnapClient Example

IP-Based DataSnap Clients
Creating an IP-Based DataSnap Client
Adding IP-Based DataSnap Server Connectivity
The IPDataSnapClient Example

Copyright © 2011 Cary Jensen, Jensen Data Systems, Inc. World rights reserved. Links for purchasing this book at: http://www.JensenDataSystems.com/cdsbook/. This footnote does not appear in the printed book.

Chapter 15 Remote ClientDataSet-DataSetProvider Interaction

Passing Query Parameters to the DataSnap Server

Passing Commands to the DataSnap Server

Passing Data Between the DataSnap Server and Client

Appendix A Web Page for the Delphi in Depth: ClientDataSets Book

Web Page for the Advantage 10 Book

About the Author

Cary Jensen

Cary Jensen is Chief Technology Officer of Jensen Data Systems, Inc., a company that provides software services, software training, documentation, and help system development. Cary is an active developer, providing companies with assistance in data modeling, software architecture, software development, and software migration. He is an award-winning, best-selling author of over 20 books, including Advantage Database Server: A Developer's Guide, 2nd Edition, Building Kylix Applications, Oracle JDeveloper, JBuilder Essentials, Delphi In Depth, and Programming Paradox 5 for Windows. A frequent speaker at conferences, workshops, and seminars throughout much of the world, he is widely regarded for his self-effacing humor and practical approaches to complex issues. Cary is an author and speaker for the 2001-2010 Delphi Developer Days tours in the US and Europe (more recently, Delphi Developer Days 2009-2011 with fellow author and Delphi expert Marco Cantù), the 2003-2006 Advantage Developer Days tours, 2000-2001 Delphi Development Seminars, the 1999-2000 Borland Developer Days, and the 1995-1999 Delphi World Tours. Cary has a Ph.D. from Rice University in Human Factors Psychology, specializing in human-computer interaction.

You can follow Cary on twitter at:
http://twitter.com/caryjensen/

Cary also writes a blog, *Let's Get Technical*, in which he typically posts magazine-length articles on Delphi and other software-related topics:
http://caryjensen.blogspot.com/
